ABOUT ME

I came across programming while looking for an apprenticeship. Since then, I have been very interested and fascinated by it. Besides programming, I am also interested in football and also played in a local club for a while.

APPRENTICESHIP

Workplace

VZ VermögensZentrum AG | August 2020 - Today |

- I am doing my apprenticeship at the VZ VermögensZentrum in Zurich

School

ICT Berufsbildungscenter AG | August 2020 – July 2021 |

- Basic apprenticeship year for software developers

BBW Berufbildungsschule | August 2020 – Today |

- Learning job-specific moduls

Projects/Work

- I am currently a member of the CRM Team, we maintain some of our financial applications.
- One of our main applications is the „Finanzdatentool"(= finance data tool), which is written in C#.
- One of our newest projects is made with Angular, in which I could also collect some experiences.
- Typically, my working experience involves developing projects in C# and usually accessing SQL databases.

Wie geht es nun weiter....

Haben alle eine gültige ID oder einen Pass. Dieses muss mindestens bis am 22.03.2024 gültig sein. Bitte schicken Sie mir ein Foto davon (mit welchem Sie reisen werden). Mit genau diesem Namen werde ich die Flüge buchen.

Bitte erstellen Sie mir bis Donnerstag nächste Woche eine Bewerbungsdossier.

- Bitte verfassen Sie dieses in Englisch.
- Lassen Sie Unwesentliches weg (Primarschule, Kindergarten etc)
- Beschreiben Sie Ihre Person kurz. Welche Hobbies haben Sie, was sind Ihre Interessen. Das kann aber kompakt sein.
- Neben der Liste Ihrer Skills, seien Sie auch ein wenig konkret was Sie typischerweise machen. Zum Beispiel:

  -At the moment I am developing a Java FX Desktop Application (with Intellij) that extracts data from text files and visualizes them in charts......

  -I am currently a member of a team that develops a web-based application in PHP that allows registered use to....

  - Typically my working experience involves developing projects in C# and usually accessing sql databases....

  - In my last project I implemented.........

  - the following URL shows the most recent project that I was working on:......

```
Code
        HTML/CSS          ■■■□□
        PHP               ■■■■■□
        JavaScript        ■■□□□
        Java              ■■■□□
        React             ■□□□□
Data
        SQL               ■■■□□
Software
        Git               ■■■□□
        Android Studio    ■■■□□
        Microsoft Office  ■■■■■
OS
        Windows           ■■■■□
```

Wo möchten Sie, könnten Sie am besten eingesetzt werden?

z.B: My skills could best be applied in developing Java Desktop Application (FX). I'm especially good at working with databases (mysql) JPA/Hibernate. However, I am also confident with Ruby. My second choice would be developing web applications with HTML,JS , CSS. I have also basic to intermediate skills in PHP/Angular/JSF....

My strength lies in programming Java (FX..., with IntJ / Eclipse,...) and my recent experiences working with databases and JPA have added to that skill. I also have some experience developing web applications using......., although that is not what I have been working on the last few months.

Preferably, and to the use of my best skill, I would be developing Java applications. Nevertheless, I am quite versatile as you can extract from my list
